DETAILED ACTION

Claim Objections

1. Claims 11 and 23 are objected to because of the following informalities: in claim 11, the term "claim 1" needs to be deleted; and in claim 23, the term "sot-gel" is misspelled. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 4-8, 13, 14, 16-18, 20, 26, 28-30, 36, 39,40, 45-47, 50,51, 69 and 71 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vogelsang et al ('323) in view of the Magellan Systems Int. publication describing M5 fibers. Applicant's arguments have been considered but are not deemed persuasive for the reasons of record. Concerning the term "pre-treated" that has been incorporated into claims 4, 28, 45 and 69, this term is a process limitation that does not add any specific structural features to the final claimed product.

4. Claims 21-25, 41, 42 and 72 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vogelsang et al ('323) in view of the Magellan Systems Int. publication describing M5 fibers as applied to claims 4-8, 13, 14, 16-18, 20, 26, 28-30, 36, 39,40, 45-47, 50,51, 69, 70 and 71 above, and further in view of Blohowiak et al ('578). Applicant's arguments have been considered but are not deemed persuasive for the reasons of record.

5. Claims 9-12, 15, 19, 27, 31-35, 37, 38, 43, 44, 48, 49 and 52-55 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vogelsang et al ('323) in view of the Magellan Systems Int. publication describing M5 fibers as applied to claims 4-8, 13, 14, 16-18, 20, 26, 28-30, 36, 39,40, 45-47, 50,51, 69, 70 and 71 above, and further in view of Westre et al ('050). Applicant's arguments have been considered but are not deemed persuasive for the reasons of record.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
